- Teamwork and Creativity

Experience

Intern at “6Months Media & Growth LLP”

At “6Months Media & Growth LLP” as an intern, developed and optimized custom e-commerce sites using Shopify, enhancing user experience and site performance. Contributed to the Shopify App Store as an intern, assisting in developing and integrating apps to streamline business operations.

PROJECTS

AI-Content Generator(Next..js+Postgres+Gemini-AI):

Developed a full-stack AI content generator web application using Next.js, PostgreSQL, Drizzle ORM, and Clerk for secure authentication. Integrated Gemini AI API to power 20+ tools including blog generators, YouTube SEO tools, Instagram content creators, and code utilities

Class Scheduler App(MERN Stack):

Built a dynamic web app for managing daily class schedules, allowing users to update daily routines, which reset automatically each day. Utilized React Context for persistent state management and Tailwind CSS for a responsive, user-friendly interface.

MoneyMap(React+Firebase):

Developed a personal finance tracker dashboard using React, Firebase, and Ant Design Charts to monitor income, expenses, and current balance with dynamic data visualization. Implemented features like CSV export, real-time transaction tracking, and 7-day/monthly balance analytics for enhanced financial insights.

Using API : using HTML, CSS, JavaScript, OpenWeatherMap Api and QrCodeGenerator API.

Weather App

QR Code Generator

Using React Js :

Password Generator

It generates a random password as per the length and strength provided by the user.

Currency Converter

It changes the currency of two different nations as per input given by the user.
